FIELDWIRE
A GROUP COMPANY OF **HILTI**

Connect your field and office teams on a single easy to use platform

Leverage the power of Fieldwire to complete projects on time and on budget by giving your team a collaborative field management platform. Our mobile-first and offline capable platform provides up-to-date drawings, real-time progress tracking, and instant communication on any device.

Track progress and issues

Manage work and solve problems with the entire team in real-time

Markups and as-builts

Easily mark-up drawings from any iOS or Android mobile device

RFI management

Generate RFIs onsite in real-time at specific locations on the drawings

Progress photos

Capture photos on-site with timestamps and GPS coordinates

Customized forms

Standardize reporting across all your projects and submit forms on the go

Offline capability

Seamless access and updates to current plans, documents, and tasks

EllisDon

"Fieldwire is great because you can capture and control all project data in one spot. I bet you it's probably saved us needing 2-3 QA/QC people."

Mike Armstrong, Assistant Project Manager

CLARK CONSTRUCTION

"This is by far the easiest software rollout that I've ever been a part of."

Steve Stankiewicz, Director of Field Application Services

GRAHAM

"Initially, it was around $7,000 to print off one set of drawings, so we've saved $35,000 just on printing costs with Fieldwire."

Robin Beck, Document Controller
